Breaking Physics

👁 14 ✓ 0 ★ 1

Chapter 1 by xCringe

Haha, now that is impossible! One does not simply "break physics."

I am Jimmy, the Physics Wizard! I will teach you physics!

For lesson 1, we have Newton's Laws of Motion. Isn't that exciting?!

Part 1:

a) Newton's 1st law: An object at rest will stay at rest unless acted upon an outside force. This is called inertia.

b) Newton's 2nd law: $ma=f$ (mass x acceleration = Force)

c) Newton's 3rd law: Every action has an equal or opposite reaction.
